

Practical AI Solutions LLC - Cover Letter

Cover Letter - Montana CARD RASS Submission

DRAFT - Baptiste copy/pastes to email after smoke-testing the LMS end-to-end.

To: DORCARDRASS@mt.gov **Cc:** KENT.HAAB@mt.gov **From:** Baptiste Buchler, Practical AI Solutions LLC (CertReady), baptiste.buchler@gmail.com / info@certready.org **Subject:** RASS Private Training Program Application - Practical AI Solutions LLC (CertReady) - On-Premises and Off-Premises Online Courses

Dear Mr. Haab and the CARD review team,

Practical AI Solutions LLC, doing business as CertReady (certready.org), hereby submits its Montana Responsible Alcohol Sales, Service, and Delivery training programs for review and approval as private training providers under ARM 42.13.906 and MCA 16-4-1006.

This submission covers two distinct courses, as required by the on/off-premises split in HB 157 (eff. January 1, 2026):

- **Montana RASS - On-Premises** (course slug `mt-alcohol`), at least 120 minutes of content
- **Montana RASS - Off-Premises** (course slug `mt-alcohol-offsale`), at least 60 minutes of content

Both courses are bilingual English and Spanish, delivered fully online via our LMS at certready.org, and include:

- Time-floor enforcement at the LMS level (≥ 120 / ≥ 60 minutes of cumulative content time before the final exam unlocks)
- Full digital ID coverage per HB 196 (eff. October 1, 2025), including the new offense for fraudulent digital ID use under MCA 16-6-305
- Coverage of the HB 211 third-party delivery framework (eff. January 1, 2026) for off-premises retailers
- A standalone Montana-specific training supplement mapping every statute and administrative rule the curriculum touches

- AI-powered Study Buddy and AI-graded short-answer feedback for student understanding (powered by Google Gemini)
- Audio support in both languages: English MP3 narration for every referenced chunk and Spanish browser text-to-speech in the LMS audio player
- Module-overview media (NotebookLM video/podcast) - currently paused pending regeneration and QA
- 80% passing score under ARM 42.13.907. The official Montana exam is the state-supplied question set (pending from CARD per ARM 42.13.904(1)(f)); in the interim the course uses a practice exam (40 questions from a 64-question pool on-premises / 25 from a 40-question pool off-premises). Retake policy follows ARM 42.13.907 as adopted March 7, 2026 (MAR Notice 2025-292.3 (adopting the amended proposal in MAR Notice 2025-292.2)): a first-attempt score of 70–79% allows the learner to retake the final exam directly; a first-attempt score below 70% requires retaking the entire program before another final-exam attempt.

Submission package contents

Attached to this email:

1. [cover-letter.pdf](#) (this document)
2. [curriculum-outline.pdf](#) - module-by-module map vs. ARM 42.13.907 + MCA 16-4-1006 content requirements (for both tracks)
3. [mt-supplement.pdf](#) - Montana-specific training supplement (standalone, statute-citation document)
4. [reviewer-credentials.pdf](#) - LMS reviewer URL, login, and password for both tracks
5. [scoring-methodology.pdf](#) - exam configuration, retake policy, scoring calculation
6. [completion-reporting-workflow.pdf](#) - how cert completions feed the certsearch database (svc.mt.gov/dor/liquorserver)
7. [differentiator-onepager.pdf](#) - how CertReady exceeds ARM 42.13.906(4)(b)'s "videos, scenarios, or other materials" interactivity bar
8. [content-map.pdf](#) - what carries from the universal alcohol-server framework vs. what is Montana-specific content
9. [coverage-audit.pdf](#) - checklist of every ARM 42.13.907 topic and where it appears in each track
10. [qa-gate.pdf](#) - internal QA checklist for transparency
11. [qa-report-2026-05-12.pdf](#) - content-audit report from the multi-round regulatory review

Pre-submission consultation

I would welcome a brief pre-approval call (or email exchange) on:

- Confirmation of the verbatim post-March 7, 2026 ARM 42.13.901-907 text (or Mr. Olson's referral if more appropriate)
- Confirmation of the preferred CSV reporting field schema for the trainer portal (cadence is fixed at within-two-weeks per ARM 42.13.904; we want to confirm only the field-level schema and the preferred submission channel)
- Confirmation of the current approval-cycle term for private RASS training programs (the post-March 7, 2026 ARM 42.13.906 amendments updated this — we want to confirm the adopted duration before we set internal renewal reminders)
- Any updated supplement template CARD wants providers to follow

Reviewer LMS access

Reviewer credentials are in attachment 4. The reviewer accounts have ungated access (can jump any module, take exam at any time, bypass time-floor) so you can navigate the LMS efficiently. A separate "demo" account follows the normal student gate if you want to see the full progressive flow.

Response timeline

We will respond to any review questions within 5 business days.

Thank you for your time and your work on the 2026 framework. We are excited to be part of Montana's RASS provider ecosystem.

Sincerely,

Baptiste Buchler Founder, Practical AI Solutions LLC (CertReady) baptiste.buchler@gmail.com / info@certready.org
